Cynthia - sometime last week I offered but suggested Rob might be a better show for the students. Rob and I can talk if needed.

See ya

>> Hi, Cynthia,
>>
>> This is Katie Shapiro and I am a middle school science teacher at Silverton School. For the first semester, the students are trying to answer the question: why is Cement Creek red? We are studying the properties of matter and next week will be starting to investigate the properties of water.
>>
>> Is there a presentation happening on Tuesday that you think would be relevant to the students? We have science from 8-9 but let me know if there is another time that would work better. Or, would someone be able to come to the MS and give a presentation on Tuesday from 8-9 about the upper Animas watershed or Cement Creek specifically?
>>
>> I am working with Kevin deKay, the high school science teacher, and I have already emailed Lisa Richardson (yesterday) but am waiting to hear back.
